

Arthritis in Saskatchewan – A letter to Saskatchewan electoral candidates
(Email send out date: March 18, 2016)

Letter from Arthritis Consumer Experts

Dear Electoral Candidate,

The arthritis community is a significant constituency in your province.

Arthritis has devastating and debilitating effects on the lives of more than 150,000 Saskatchewan residents aged 15 years and above.

Arthritis is the leading cause of disability and work disability in Saskatchewan. About a quarter of the population with arthritis between 20 and 54 years of age in Saskatchewan were not in the labour force because of their arthritis, costing Saskatchewan's economy more than \$640 million in productivity losses.

Arthritis Consumer Experts is asking Saskatchewan's political leaders to share their plan on how to meet the needs of Saskatchewan residents and improve arthritis prevention, treatment and care.

We look forward to your Party's response to our attached [survey](#) titled: "Share your plan for arthritis prevention, treatment and care in Saskatchewan".

We have also included an [arthritis information fact sheet](#) titled "Arthritis Consumer Experts – Arthritis in Saskatchewan Fact Sheet" for your reference.

Regards,

Cheryl Koehn
President, Arthritis Consumer Experts
