Arthritis Consumer Experts (ACE) is Canada's largest and leading arthritis patient advocacy organization. ACE provides science-based information, education and support to people with arthritis, their families, friends and colleagues, to help those living with it take control of their disease and improve their quality of life. ACE actively advocates on arthritis health issues through ACE's JointHealth™ family of programs and the National Arthritis Awareness Program.

The 6 million Canadians living with arthritis play a significant role in the work force and the economy. With that in mind, and understanding that successful companies and organizations are paying more attention to the needs of employees living with arthritis, ACE announced the creation of the "Canada's Best Workplaces for Employees Living with Arthritis Awards", as part of its broader arthritis and the workplace program of the same name.

The "Canada's Best Workplaces for Employees Living with Arthritis Awards" is a national search to find and recognize small, medium and large companies or organizations who offer exceptional workplaces for their employees living with arthritis.

We are interested in learning about your workplace. If you are an employer or employee, we encourage you to complete this survey to assess your company's arthritis friendliness. By completing this form, you will reinforce practices you are already doing well and, at the same time, identify exciting new opportunities for improvement for your employees with arthritis.

The survey addresses best practice criteria in a number of workplace domains: Organizational Benefits, Physical Workplace, and Employee Education. Please carefully consider your responses, which are strictly confidential.

Thank you for your interest and helping ACE recognize Canada's leading companies and organizations and the optimal workplaces they create for their employees living with arthritis.

Name of nominated company or organization:

Nominated company's or organization's industry/sector:

Number of Employees:

Head Office Location:

Are you a current or former employee?

Job title:

Your name:

Contact number:

Email:
