

Arthritis in Quebec – A letter to Coalition Avenir Quebec
Email sent out date: September 7, 2022

Letter from Arthritis Consumer Experts

Dear Premier Legault,

The arthritis community is a significant constituency in Quebec.

Arthritis Consumer Experts (ACE) is asking Quebec's political leaders to share their plan on how to meet the needs of more than 1.5 million Quebec residents living with arthritis.

ACE is interested in the Coalition Avenir Quebec's response to our attached survey titled: ["Share your plan for arthritis prevention, treatment, and care in Quebec"](#).

Arthritis affects one in five Quebec residents. The time to address models of care in arthritis is now after years of being at the back of line of health care planning and delivery. The way people living with arthritis access and receive healthcare varies significantly across Quebec. This particularly affects Quebec voters living with inflammatory arthritis – like rheumatoid arthritis – who depend on getting a timely and accurate diagnosis, fast access to rheumatologists, appropriate public reimbursement for needed disease-modifying medications, among other critical elements of an arthritis model of care.

To effectively treat and manage arthritis, the next elected Quebec government must improve the level of arthritis prevention, treatment, and care.

We look forward to your response.

Yours sincerely,

Cheryl Koehn

Arthritis in Quebec – A letter to the Liberal Party of Quebec
Email sent out date: September 7, 2022

Letter from Arthritis Consumer Experts

Dear Ms. Anglade,

The arthritis community is a significant constituency in Quebec.

In the lead up to the provincial election, Arthritis Consumer Experts (ACE) is asking Quebec's political leaders to share their plan on how to meet the needs of more than 1.5 million Quebec residents living with arthritis.

ACE is interested the Liberal Party of Quebec's response to our attached survey titled: "[Share your plan for arthritis prevention, treatment, and care in Quebec](#)".
