Dear Minister Aglukkaq:

Thank you for your July 4 2007 letter, responding to our request on March 20, 2007, for Nunavut to expedite the listing of rituximab (Rituxan®) for the treatment of moderate to severe rheumatoid arthritis.

In your July 4, 2007 letter, you stated that the Nunavut Department of Health and Social Services adds medications to the territorial formulary when they are added to the Federal NIHB Formulary. In light of this, we are pleased to inform you that rituximab was added to the NIHB drug formulary as of ?, and urge your government to immediately add rituximab to territorial drug programs.

Rituximab is an important medication to include on the drug programs as it is intended to treat people in Nunavut with moderate to severe rheumatoid arthritis who have had an inadequate response to an anti-TNF agent, the current "state-of-the-art" class of treatments. Just like in HIV/AIDS, it is a cocktail of medication treatments that help as much as possible to restore the normal immune function of the person living with rheumatoid arthritis. No one person living with rheumatoid arthritis responds to the same cocktail of medications as the next.

For these reasons, Arthritis Consumer Experts and the Canadian Arthritis Patient Alliance thank you on behalf of its community members affected by rheumatoid arthritis for accepting the CDR recommendation and including this medication on the territorial drug lists. This will ensure that citizens of Nunavut living with rheumatoid arthritis will have timely access to valued medications and a greater choice in treatment options.

Sincerely,

Cheryl Koehn  
President, Arthritis Consumer Experts  
Person with rheumatoid arthritis

Anne Dooley  
President, Canadian Arthritis Patient Alliance  
Person with rheumatoid arthritis

Encls.

C.c. Non-Insured Health Benefits Directorate, First Nations and Inuit Health Branch  
Alex Campbell, Deputy Minister
